PROFESSIONAL SUMMARY

Software Engineer with 1+ years of experience delivering web applications and collaborating across development, design, and business teams throughout the software development lifecycle. Experienced in coordinating project deliverables, gathering requirements, tracking progress, and ensuring timely execution in fast-paced environments. Proficient in Next.js, TypeScript, MongoDB, and REST APIs, with hands-on experience integrating third-party services, improving website performance, and managing deployments through GitHub Actions. Strong organizational, communication, and problem-solving skills, with exposure to SEO, analytics, AI-assisted development tools, and Agile workflows. Passionate about supporting project delivery, maintaining documentation, and driving successful outcomes through effective collaboration.

TECHNICAL SKILLS

Programming Languages JavaScript, TypeScript, Python, HTML, CSS
Frameworks & Libraries React, Next.js, Node.js, Express
Databases MongoDB, PostgreSQL
Tools & Platforms Git, GitHub, GitHub Actions, Postman, Power Automate, Firebase
Project Management Agile, Jira, Project Planning, Task Tracking

WORK EXPERIENCE

Technical Operations Lead Jun '25 — Present
Webgeon Results Private Limited Hyderabad

- Delivered 35+ web application projects from client onboarding through deployment, coordinating requirements, timelines, stakeholder communication, and successful end-to-end project execution.
- Collaborated with clients, designers, and developers to gather business requirements, define project scope, prioritize tasks, and ensure timely delivery across multiple concurrent projects.
- Developed and maintained scalable e-commerce and SaaS applications using MongoDB, Express.js, React, Node.js, Next.js, and TypeScript, while following software development best practices and maintaining high code quality.
- Improved website performance by increasing Lighthouse scores from 37 to 75 through performance optimization techniques, including lazy loading, code splitting, API optimization, and caching strategies, reducing backend load and enhancing user experience.
- Coordinated the integration of third-party services, including payment gateways, shipping providers, analytics platforms (Google Tag Manager and Meta Pixel), and external APIs, ensuring seamless implementation and testing.
- Managed technical SEO initiatives, including structured data, XML sitemaps, metadata optimization, and Google Search Console monitoring, improving website visibility and search engine performance.
- Maintained project documentation, tracked development progress, communicated status updates, and worked closely with cross-functional teams to resolve issues, manage dependencies, and support on-time project delivery.

HR & IT Operations Intern Oct '24 — May '25
Webgeon Results Private Limited Remote

- Built an internal ticket automation tool using Power Automate. Deployed websites on Firebase and maintained CI/CD pipelines via GitHub Actions.

PROJECTS

Rajlaxmi B2B E-commerce Platform

- B2B e-commerce platform with product catalog, tier-based pricing, RBAC, payment gateway (Razorpay) and shipping API integrations, and full technical SEO optimization including structured data, sitemaps, and GTM setup. Proprietary.

Kaishi Ecommerce Website

- Next.js Ecommerce website which is being integrated with shiprocket for shipping and delivery , razorpay for payments .
