

SANDESH GIRISH

Full Stack Developer

Bengaluru, Karnataka, India | +91 6238838200 | sandeshgirish348@gmail.com | [LinkedIn](#) | [Portfolio](#) | [Github](#)

Immediate Joiner

PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of experience building and shipping scalable web applications using React, Next.js, Node.js, and TypeScript. Hands-on experience designing REST APIs, integrating relational and NoSQL databases (PostgreSQL, MongoDB), and deploying through CI/CD pipelines with GitHub Actions. Delivered 35+ web application projects end-to-end, from requirements gathering through production deployment, improving Lighthouse performance scores from 37 to 95. Comfortable across the stack: responsive UI development, secure authentication, third-party API integrations, and Agile team collaboration. Immediate joiner, based in Bengaluru.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL, HTML, CSS

Frontend: React, Next.js, Responsive UI Development, Core Web Vitals Optimization

Backend: Node.js, Express.js, REST API Design, Authentication & Authorization

Databases: PostgreSQL, MongoDB, MySQL, SQL Query Optimization

DevOps & Tools: Git, GitHub, GitHub Actions (CI/CD), Postman, Vercel, Firebase

Practices: Agile/Scrum, Code Reviews, Technical SEO, Performance Optimization, API Testing

WORK EXPERIENCE

Technical Operations Lead (Full Stack Developer) | Webgeon Results Private Limited, Hyderabad *Jun 2025 – Present*

- Built and maintained REST APIs and scalable backend services using Node.js and Express.js, including authentication, authorization, and database design with MongoDB and PostgreSQL.
- Developed responsive, reusable frontend components using React, Next.js, and TypeScript, collaborating in sprint planning and code reviews to ship review-ready features.
- Improved website performance by raising Lighthouse scores from 37 to 95 through lazy loading, code-splitting, API optimization, and caching strategies.
- Integrated third-party services including payment gateways (Razorpay, PhonePe, PayPal), shipping APIs (Shiprocket, DTDC), and analytics platforms (Google Tag Manager, Meta Pixel).
- Automated deployments and CI/CD pipelines using GitHub Actions, following Git branching and pull request workflows.
- Delivered 35+ web application projects end-to-end, coordinating requirements, timelines, and stakeholder communication.

HR & IT Operations Intern | Webgeon Results Private Limited, Remote *Oct 2024 – May 2025*

- Built an internal ticket automation tool using Power Automate and documented workflows to improve team knowledge sharing.
- Deployed applications to Firebase and maintained CI/CD pipelines using GitHub Actions, following Git version control best practices.
- Collaborated with the Operations team to evaluate and integrate technology solutions and service partners.

PROJECTS

Webgeon HRMS Portal — React, Express.js, MongoDB

- Designed and built a company-wide HRMS portal centralizing onboarding, attendance, document management, and leave workflows.

Kaishi Ecommerce Platform — Next.js, Node.js, REST APIs, Razorpay, Shiprocket

- End-to-end development of a full-stack eCommerce platform with authentication, database design, payment integration, and production deployment.

Qsuite-360 — Internal Project Management Tool — Next.js, Node.js, MongoDB

- Built an internal project management and finance platform covering project onboarding, documentation, task tracking, and invoicing.

EDUCATION

B.Tech, Electronics and Communication Engineering | Federal Institute of Science and Technology, Ernakulam | 2021 – 2025

AWARDS & LEADERSHIP

- Outgoing Student Award, Outstanding Student Leadership Award, and Treasurer — IEEE FISAT Student Branch
